

NOTICE OF PUBLIC INFORMATION CENTRE NO. 1

Environmental Assessment (EA) Study for Teston Road, from 250 metres west of Pine Valley Drive to Kleinburg Summit Way

THE STUDY AND PROCESS

The City of Vaughan has initiated the Environmental Assessment (EA) study for the area of Teston Road from 250 metres west of Pine Valley Drive to Kleinburg Summit Way. The study will address transportation needs for those who live in the area and travel through it, including safety and operational improvements for all modes of transportation, like motor vehicles, public transportation, biking and walking.

The Teston Road EA study will assess alternative improvements with consideration of impacts to transportation service and the natural, socio-economic and cultural environments. The study will be completed in accordance with the planning and design process for Schedule 'B' projects, as outlined in the Municipal Engineers Association (MEA) Municipal Class EA guidelines (October 2000, as amended in 2007, 2011 and 2015).

Upon study completion, a project file report will be made available for public review and comment at vaughan.ca/TestonRoad. The report will document the study, consultation process and decision-making rationale.

CONSULTATION

Public consultation is a vital part of the city-building process. The City of Vaughan is committed to engaging with citizens and stakeholders in a meaningful and transparent way on issues and matters that impact them and recognizes the importance of protecting citizens from the global COVID-19 pandemic while also continuing to move the city forward. Citizens are encouraged to participate in this virtual Public Information Centre to help inform the Teston Road EA.

A virtual Public Information Centre will be held to both inform and seek input from the community on the study. The virtual Public Information Centre will provide stakeholders with an opportunity to:

- obtain background information on the study and review the findings to date.
- provide input and share ideas with the project team regarding key issues and concerns along the study corridor, alternative solutions, environmental considerations, and anticipated impacts and mitigation strategies.

The PIC will be held online as follows:

When: View materials at any time, beginning **Thursday, Feb. 18, 2021**

Where: Online at vaughan.ca/TestonRoad

Input Format: Please complete the **online comment form available at the link above** or provide your comments to the study team by **Friday, March 12, 2021**
